

TIE-DYE & SATIN GLAZES

TIE DYE GLAZES

These cone 6 oxidation glazes offer a wide range of color variation by utilizing thick to thin applications. These glazes will enhance any smooth or textured surface. They also “move and flow”, so be sure to leave a generous foot on your pots and apply heavier applications at the top of your vertical vessels to allow for any flow.

When you buy ...	4 oz	Pint	Gallon
TD502 Galaxy Blue	\$9.00.....	\$21.00	\$92.50

TD509 • Rose Gold

TD510 • Halo Purple

TD511 • Purple Velvet

TD513 • Orange Neon

TD514 • Milk & Honey

SATIN GLAZES

These cone 6 oxidation glazes have a rich, soft, glowing surface. Many of these glazes are semi-transparent and work great with Georgies Interactive Pigments. Mix and layer to create new shades and tones. The ‘satin’ surface creates a great assurance of food safety and durability without the gloss. These glazes are zinc-free.
